07	Mary Roach '09	<b>Omnia Humanitas:</b> Horticulture work on large-scale landscape design for arts center	Newark, DE
06	Allison Hennigan '06	<b>University of Georgia Marine Institute at Sapelo Island:</b> Investigate the ecology & evolution of coastal dune plant populations	Sapelo Island, GA
06	Anna Johnson '06	<b>University of Georgia Marine Institute at Sapelo Island</b> Investigate the ecology & evolution of coastal dune plant populations	Sapelo Island, GA
05	Joan Henriksen '05	<b>Student Conservation Association, Pacific Islands Region, HI</b> Study invading plant species in a tropical ecosystem	Pacific Islands Region, HI
05	Anna Johnson '06	<b>Smithsonian Environmental Research Center:</b> Interpret Smithsonian environmental research in education dept.	Edgewater, MD
05	Kerry Morse '06	<b>Nature Conservancy of Montana:</b> Collaborative weed project between ranchers, federal agencies, etc.	Helena, MT
03	Joan Henriksen '05	<b>SCA, Manomet Center for Conservation Science:</b> Forest management strategies to maintain forest biodiversity	Manomet Center, ME
03	Tristan Stani '04	<b>University of Delaware, College of Marine Science:</b> Research population dynamics of marine fish & invertebrates	Lewes, DE
02	Meredith Barton '03	<b>The Wetlands Institute:</b> Environmental education & research on beach erosion, terrapins	Stone Harbor, NJ
02	Jenna Beck '04	<b>Eastern Sierra Land Trust/White Mountain Research Station:</b> Create writings to help protect undeveloped lands & ecosystems	Owens Valley, CA
01	Andrew Hunt '03	<b>Patuxent Research Laboratory:</b> Research refuge management with focus on birds & contaminants	Laurel, MD
01	Danae Marshall '03	<b>Smithsonian Environmental Research Center:</b> Study the biota, environment, & ecology of forest canopy habitat	Edgewater, MD
01	David Martin '02	<b>Chattooga Conservancy:</b> Monitor Forest Service's intensive timber harvesting program	Clayton, GA
00	Andrew Hunt '03	<b>Smithsonian Environmental Research Center:</b> Interpret Smithsonian environmental research in education dept.	Edgewater, MD
00	Iva Ziza '01	<b>University of Delaware, College of Marine Science:</b> Perform research relating to chemo-attractants	Lewes, DE

## IT Systems/Computer Science (4)

Yr	Name & Class	Internship	Location
12	Alexander Leone '12	<b>Graveck Interactive:</b> Help with development of product; script & program within the Unity 3D environment using C# code; assist with quality assurance	Minneapolis, MN
12	Rhianna Toner '12	<b>Altometrics, Inc.:</b> Help develop front-end web page interface for application performance monitoring tool; write test cases & do test-driven development	Durham, NC
07	Lukas Goodmuth '07	<b>University of Maryland, Dept of Computer Science:</b> Develop “biologically inspired” computer programs with modeling	College Park, MD
07	Andrew Shields '08	<b>Rescue Mission Ministries, IT System Administration:</b> Design & build website to gain real-world web design	Roanoke, VA

## Law/Government/Politics/Public Policy (79)

Yr	Name & Class	Internship	Location
19	Levan Kiladze '22	<b>Ministry of Justice of Georgia, Analytical Department</b> Assist in strategic planning, research and analyze international standards and experiences of foreign states; conduct surveys for the purpose of developing Georgian legislation and policy; participate in preparing recommendations for key legislative reforms; provide support as needed	Tbilisi, Georgia
19	Rachael Langston '19	<b>Wise &amp; Donahue P.L.C.</b> Become acquainted with the history of public housing in the U.S.; research and read relevant law; work with attorneys from Maryland Legal Aid; draft memoranda and provide other legal support for a public housing lawsuit	Annapolis, MD
19	Kamrin Martin '21	<b>The Law Office of Corrie A. Boulay</b> Interact with clients from initial intakes and phone calls to trial preparation and observation; learn to draft pleadings and how to eFile pleadings with the Circuit Court; work with three attorneys learning the business aspect of a small firm including billable time keeping, client billing, and calendaring	Annapolis, MD
19	Sean Miller '20	<b>Maryland Office of the Public Defender, Anne Arundel County</b> Engage in insightful hands-on experience that includes participating in case development, client interviews, investigation, research, writing, courtroom observation as well as mitigation preparation and sentencing alternatives to address mental health, substance abuse and other client challenges	Annapolis, MD
19	Yu Yau “Alice” Wong '21	<b>The American Enterprise Institute</b> Conduct research on the skills needed for success in the modern economy and effective strategies for developing those skills; assist with research on criminal reform and domestic poverty as well as research on the outcomes of St. John’s alumni for an upcoming book; edit articles; organize and transcribe data	Washington, DC
19	Rediet Worku '21	<b>The African Union</b> Work in a highly collaborative, fast-paced diplomatic environment; track and analyze a wide range of events and projects (political, economic, social, technological, etc.); manage meeting agendas and draft meeting notes; research and prepare reports, including on border issues	Addis Ababa, Ethiopia
19	Abraham Zhao '19	<b>Hudson Institute</b> Research and prepare regular briefing reports on strategic and political issues in Eurasia; conduct in-depth research on India, India-China-U.S. relations, religion and politics, democracy, the ethics and politics of technologies like Artificial Intelligence and robotics, and demography; assist at public events	Washington, DC

**Law, Government, Politics, & Public Policy continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
18	Prabesh Koirala '19	<b>Judiciary Consultancy and Service Center</b> Study past cases for a private law firm; become involved in discussions with clients; observe and report on court hearings; conduct research for numerous mini projects on cases of mineral extraction	Kaski, Nepal
18	Rachael Langston '19	<b>Brooklyn Legal Services Corporation A</b> Accompany attorneys and tenant organizers to a variety of meetings; conduct research on housing conditions, client narratives, landlord-tenant law, fair housing law and land use; draft reports; assist with preparation of witnesses and evidence for trial	Brooklyn, NY
18	Sean Miller '20	<b>Maryland Office of the Public Defender, Anne Arundel County</b> Assist in the defense of criminal cases in an office dedicated solely to the representation and advocacy on behalf of indigent clients charges with criminal offenses; investigate facts; locate witnesses; observe the courtroom and conduct interviews	Annapolis, MD
18	Val Pehrson '19	<b>Office of Councilman Charles Allen</b> Assist with general office duties; update constituent records; conduct policy research; attend community events and meetings in Ward 6 on the Councilmember's behalf; assist in preparing briefing and outreach materials	Washington, DC
18	Ivan Syritsyn '19	<b>U.S. House of Representatives, Office of Congressman Mark Meadows</b> Answer phones; provide Capitol tours; help with research and writing as needed to assist the legislative team; help draft congressional records, letters of congratulations, and birthday notes	Washington, DC
17	Elizabeth Akhvlediani '17	<b>Office of the State Minister of Georgia on European &amp; Euro-Atlantic Integration</b> Deepen knowledge of politics and international relations and specifically Georgia's integration in NATO and EU; participate in establishing documentation; attend and participate in meetings and events; write letters and reports	Tbilisi, Georgia
17	Sebastian Barajas '17	<b>National Youth Rights Association</b> Monitor media coverage and legislation on specific issues; research and analyze court opinions; write articles and post in social media channels; use statistics to develop arguments from a youth rights perspective	Takoma Park, MD
17	Zoe Collins '18	<b>House of Ruth</b> Participate in client intake interviews; provide legal information and referrals to victims of domestic violence; accompany staff attorneys to court; accompany domestic violence clients to criminal or civil proceedings	Baltimore, MD
17	Hayley Dunn '17	<b>DC Safe: Survivors and Advocates for Empowerment</b> Support victims and survivors of domestic violence as they take steps to become self-sufficient; learn about the civil and criminal justice system in Washington, DC; strive to improve safety and well-being through systems advocacy	Washington, DC
17	Tyler Mazur '20	<b>Office of Congressman Anthony Brown</b> Assist in the everyday operations of a congressional office; process mail; answer phones; write correspondence; plan and attend meetings, briefings, and hearings; may make deliveries and assist in guided tours	Washington, DC
17	John Monday '19	<b>Congressional Award</b> Provide event planning and management; work on programming and communication initiatives; correspond with congressional offices and media outlets; manage social media portfolio; press writing and database management	Washington, DC
17	Sawyer Neale '18	<b>The Raben Group</b> Conduct background and issue-specific research; draft and/or edit reports, briefings and memos; track legislation; help plan and staff a wide range of convenings, including congressional, coalition, press and issue campaign events	Washington, DC
17	Katherine Rees '17	<b>Office of the Federal Public Defender for the District of Vermont</b> Interact with federal public defender attorneys and staff, their clients, and the federal criminal defense community; observe client meetings, attend court proceedings and meetings with criminal defense community; complete research memoranda; assist in case investigation	Burlington, VT

**Law, Government, Politics, & Public Policy continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
17	Himanshu Thapa '19	<b>Legal Aid and Consultancy Centre</b> Collect information/data for research; assist attorneys advocating for women's rights with a focus on educating the women and children of Nepal and working to end discrimination and violence through legal aid and advocacy	Kathmandu, Nepal
17	Prasanna Jung Thapa '19	<b>Alternative Energy Promotion Center</b> Undertake research, field survey and monitoring activities of the Climate and Carbon Unit; provide report preparation and documentation; assist in publication preparation, organizing meetings, seminars and workshops	Lalitpur, Nepal
16	Elizabeth Akhvlediani '17	<b>Ministry of Foreign Affairs of Georgia</b> Gain a perspective of the strategy, analysis, implementation and execution of Georgia's foreign policy	Tbilisi, Georgia
16	Dorothea Bowerfind '19	<b>Anne Arundel County State's Attorney's Office</b> Gain hands-on experience with criminal cases and decision-making based on policies, facts of the case, history, statutes, and constitutional law; read police and charging documents	Annapolis, MD
16	Lili Dallet '19	<b>Office of Council Member Carlos Menchaca</b> Engage in community and constituent organizing on topics from active case work; analysis of and advocacy for participatory budgeting; help launch a youth-run project to support literacy	Brooklyn, NY
16	Hayley Dunn '17	<b>Anne Arundel County State's Attorney's Office</b> Gain hands-on experience with criminal cases and decision-making based on policies, facts of the case, history, statutes, and constitutional law; read police and charging documents	Annapolis, MD
16	Camille Testa '19	<b>Anne Arundel County State's Attorney's Office</b> Gain hands-on experience with criminal cases and decision-making based on policies, facts of the case, history, statutes, and constitutional law; read police and charging documents	Annapolis, MD
16	Matthew Voges '18	<b>North Star Criminal Defense, St. Paul, MN</b> Work on legal research projects; catalog the brief-bank; support efforts for jury and bench trials; quickly learn the writing standards that prevail in Minnesota in a criminal defense practice	St. Paul, MN
15	Elizabeth Akhvlediani '17	<b>Consulate General of Georgia</b> Assist Consul General and learn the internal structure and functions of the Georgian Diplomatic Mission abroad	New York, NY
15	Gabrielle Feliciani '17	<b>Office of Senator Barbara Mikulski</b> Work closely with staff to experience how the US Senate works on a daily basis; write issue briefs; research	Washington, DC
15	Joseph Gillespie-Hill '17	<b>Anne Arundel County State's Attorney's Office</b> Train on accessing computer databases; read police reports and charging documents; observe court proceedings	Annapolis, MD
15	William Kinum '17	<b>Sneeringer Monahan Provost Redgrave Title Agency, Inc.</b> Search land title records and learn how they affect title to same; visit county clerk's offices to access land records	Hudson, NY
15	Madeline Kiss '16	<b>Foreign Policy Association</b> Assist with organization and execution of projects and events hosted by FPA; write & research articles and projects	New York, NY
15	Adam Kuester '16	<b>Anne Arundel County State's Attorney's Office</b> Train on accessing computer databases; read police reports and charging documents; observe court proceedings	Annapolis, MD
15	Chengyaqing Shi '16	<b>Sheltering Arms Children &amp; Family Services</b> Assist the Foster Care Department's in-house legal department; file documents with the court; review files	New York, NY
14	Marybeth Beydler '16	<b>Anne Arundel County State's Attorney's Office</b> Screen case files for prosecution, including reading charging documents, police reports, understanding rap sheets, following screening protocol, and making consistent recommendations for entry into drug court.	Annapolis, MD

**Law, Government, Politics, & Public Policy continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
14	Andy Blanco '15	<b>National Prison Project, ACLU:</b> Learn about building & supporting strategic legislative & advocacy campaigns; assist with research & writing; document & track complaints from prisoners	Washington, DC
14	Stella Fillmore-Patrick '15	<b>Office of Congresswoman Chellie Pingree</b> Interact with constituents, elected officials, business & community leaders; manage constituent mail, emails & calls	Portland, ME
14	Joseph Hamd '15	<b>The Public Defender Service for the District of Columbia</b> Participate in an investigative program; work directly with staff attorneys to complete tasks & advocate for clients	Washington, DC
14	Erik Neave '16	<b>Sheboygan County Office of the District Attorney, Victim-Witness Office</b> Provide services to crime victims and witnesses as cases proceed; observe & become familiar with court process	Sheboygan, WI
14	Evgenia Olimpiewa '14	<b>Resource Security Institute/Institute for European, Russian &amp; Eurasian Studies</b> Provide support to an on-going project examining the evolution of political reform in Ukraine; perform research	Washington, DC
14	Chengyaqing Shi '16	<b>Beijing Wangliang Law Firm</b> Assist lawyers with daily tasks; translate from Chinese to English and the reverse; provide article research	Beijing, China
13	Andy Blanco '15	<b>Maryland Office of the Public Defender, Prince George's County Office</b> Assist in defense of criminal cases; investigate facts; locate witnesses; conduct interviews; obtain statements	Upper Marlboro, MD
13	Yitian Cai '14	<b>Maryland Office of the Public Defender, Baltimore Office</b> Assist in defense of criminal cases; investigate facts; locate witnesses; conduct interviews; obtain statements	Baltimore, MD
13	Tanner Doxsey '14	<b>Johnson &amp; Krol, LLC</b> Experience day-to-day of legal practice; work on projects impacting labor organizations: pension, welfare, benefits	Chicago, IL
13	Ben Mishkin '14	<b>Public Employees for Environmental Responsibility:</b> Investigate & document potential environmental laws & ethics violations; file FOIA requests, review documents, conduct internet research, and attend public meetings	Washington, DC
13	Hayden Pendergrass '14	<b>The Office of Congressman Beto O'Rourke</b> Gain knowledge of legislative process & functions of a congressional office; writing, research, attend meetings	Washington, DC
13	Alexandria Plunkett '14	<b>Collins Law LLC</b> Assist with real estate transactions; attend real estate closings; attend hearings; assist with drafting briefs & motions	Annapolis, MD
12	Bar Lehmann '13	<b>Neighborhood Legal Services</b> Work with attorneys & paralegals in eviction defense & foreclosure prevention work; client contact; research; write	Lawrence, MA
12	Eric Shlifer '13	<b>Anne Arundel County State's Attorney's Office</b> Review and analyze materials in criminal investigations; assist in trial preparation; work with prosecuting attorneys	Annapolis, MD
11	Shikshya Adhikari '12	<b>Heifer International</b> Learn community development with a humanitarian organization that uses livestock & agricultural inputs to empower; monitor projects	Lalitpur, Nepal
11	Jordan Couch '12	<b>Governor's Delivery Unit (GDU)</b> Work closely with implementation manager to analyze statistics to measure effectiveness of programs; research	Annapolis, MD
11	Natalija Dobrovic '12	<b>Permanent Mission of Montenegro to the United Nations</b> Assist in drafting official document on English & Montenegrin languages; do research pertinent to the Mission's agenda; attend UN conferences	New York, NY
11	Daniel Gilles '12	<b>Maryland Office of the Public Defender</b> Assist lawyers investigating facts of their cases & preparing for trial; locate witnesses; take statements; visit court	Baltimore, MD
11	Erin Shadowens '12	<b>New York Legal Aid Society</b> Learn how public defense and the justice system function in the Juvenile Rights Practice office; assist with case investigation & preparation	New York, NY

**Law, Government, Politics, & Public Policy continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
11	Cameron Thompson '11	<b>Anne Arundel County State's Attorney's Office</b> Work with investigators & prosecuting attorneys in the Investigative & Economic Crimes Units	Annapolis, MD
10	Matthew Dudik '13	<b>Clark County Board of Commissioners:</b> Support county operations & services, research, analysis & development	Vancouver, WA
10	John Welsh '10	<b>Anne Arundel County State's Attorney's Office</b> Work with investigators & prosecuting attorneys in the Investigative & Economic Crimes Units	Annapolis, MD
09	Matthew Harris '10	<b>Committee for Public Counsel Services, Public Defender Division, Commonwealth of MA</b> Assist with criminal cases & pre-trial work	Dedham, MA
09	Sarah White '10	<b>Office of US Congresswoman Marsha Blackburn</b> Assist with constituent issues, special projects, federal grant process	Franklin, TN
07	Morgan Williams '08	<b>Washington County District Attorney's Office, Domestic Violence Advocate</b> Ensure victims of domestic violence are informed & have support	Hillsboro, OR
06	Shoshanna Goldstein '06	<b>Mainstreet Highland Park:</b> Work to create a streetscape communication plan with merchants & govt.	Highland, NJ
04	Hayden Brockett '04	<b>Office of US Congresswoman Rosa DeLaura</b> Handle constituent & legislative correspondence, attend hearings, lectures, seminars	Washington, DC
04	Mark Ingham '05	<b>Ethics and Public Policy Center:</b> Research & production of quarterly journal, <i>The Atlantis</i>	Washington, DC
04	Nora Kelleher '05	<b>New York City Department of Cultural Affairs</b> Process, analyze, and categorize applicants for funding, assemble reports	New York, NY
04	Vera Koshkina '05	<b>New York City Legal Aid Society:</b> Investigative intern, interviewing & processing potential clients, motions	New York, NY
04	Natalie Rinn '05	<b>Montgomery County Public Defender's Office</b> Interview & process clients, file motions & subpoenas, assist at pre-trial	Rockville, MD
04	Daniel Russell '05	<b>Anne Arundel County Public Defender's Office</b> Interview & process clients, file motions & subpoenas, assist at pre-trial	Annapolis, MD
03	Anna Fagergren '03	<b>Legal Services for New York City:</b> Help develop writings, prepare grant applications, lobbying coordination	New York, NY
03	Chester Martin '06	<b>Anne Arundel County Public Defender's Office:</b> Interview clients, file motions & subpoenas, assist at pre-trial	Annapolis, MD
02	Aaron Foster '03	<b>Anne Arundel County Public Defender's Office:</b> Interview clients, file motions & subpoenas, assist at pre-trial	Annapolis, MD
02	Laura Manion '04	<b>Montgomery County Public Defender's Office:</b> Interview clients, file motions & subpoenas, assist at pre-trial	Rockville, MD
02	Richard Martell '03	<b>Montgomery County Public Defender's Office:</b> Interview clients, file motions & subpoenas, assist at pre-trial	Rockville, MD
01	Nicholas Alexandra '02	<b>Montgomery County Public Defender's Office:</b> Interview clients, file motions & subpoenas, assist at pre-trial	Rockville, MD
01	Geoffrey Deimel '04	<b>Salisbury State University, Center for Conflict Resolution</b> Train in mediation, intake procedure, and conflict resolution	Salisbury, MD
01	Anna Fagergren '03	<b>Columbia Legal Service:</b> Client intake & screening, assessment, assistance to low-income clients	Seattle, WA
01	Daniel Malkiel '04	<b>The Legal Aid Society of New York:</b> Assist with arraignment & disposition of indigent clients	New York, NY
00	Alexander Owen '01	<b>United States State Department, Saudi Arabia:</b> Observe US foreign relations with Middle East & Maghreb states	Saudi Arabia
00	Paige Postlewait '01	<b>Richards &amp; O'Neil Law Firm:</b> Perform a full range of activities and duties associated with law firm	New York, NY

## Medicine/Science/Research (124)

Yr	Name & Class	Internship	Location
19	Jared Bassmann '20	<b>Memorial Sloan Kettering Cancer Center</b> Gain exposure to the hospital environment; participate in weekly grand rounds/summer methods classes, laboratory, service research, morbidity and mortality meetings and participate in trainings; observe surgical and clinical activities with the hepatopancreatobiliary group	New York, NY
19	Elizabeth Hartzell '20	<b>University of Texas, EVO Learn</b> Conduct data collection, coding, recruitment, a literature review, and maintain IRB-approved security protocols in a research lab setting among a team of research assistants, post-doctoral researchers, and the principal investigator	Austin, TX
19	Charles Hurd '21	<b>Medstar Georgetown University Hospital</b> Develop research material for newly-diagnosed MS patients; help craft content and presentations to patients; help generate a series of short "lightning talks" (20 slides for a total presentation of 5-7 minutes); organize monthly educational seminars; work on describing and documenting unmet needs for newly-diagnosed MS patients; attend meetings and shadow neurologists	Washington, DC
19	Soojin Lee '21	<b>Dong-A University, Peripheral Neuropathy Research Center</b> Participate in research on cellular and molecular mechanism underlying STAMP2-mediated modulation of lipid accumulation; assist researchers; document papers regarding experiments and research; participate in setting up experiments	Busan, South Korea
19	Zachary Leveroni '20	<b>University of Chicago, Institute for Mind and Biology, Kay Lab</b> Collect neuropsychological data from rodents; daily lab and animal duties include assisting in animal training and data collection; research relevant literature; collaborate with graduate students, lab technicians and interns	Chicago, IL
19	Gabriel Mendez '21	<b>Tulane University, Department of Evolutionary Biology &amp; Ecology</b> Conduct experiments to assess the impact of hypoxia on benthic fish communities in the Northern Gulf of Mexico; examine slides on a compound microscope to assess changes; measure fish length and weight weekly	New Orleans, LA
19	Lillian Scanlan '20	<b>University of Buffalo, Department of Pediatrics</b> Learn standard "wet lab" practices, including DNA and RNA sequencing, DNA methylation, and ChIP-sequencing; conduct research on genomic and epigenomic expression as they relate to genetic disease; develop a foundation in computational data analysis; learn the basics of R programming language	Buffalo, NY
19	Aidel Townsley '22	<b>Cornell University, College of Human Ecology</b> Take a structured program of online tutorials in statistics and computer programming as part of an introductory boot camp; receive training in Human Subjects procedures; collect and analyze experimental data; participate in lab meetings; join a vibrant community of researchers	Ithaca, NY
19	Grace Villmow '20	<b>NOAA (National Oceanic &amp; Atmospheric Administration)</b> Provide data analysis for geospatial technology at the Water Level Decision Support Geospatial Analysis; assist with project goal of evaluating this new tool developed to assist planners in modernizing the National Water Level Observation Network	Silver Spring, MD
18	Anne Brong '19	<b>University of Chicago, Institute for Mind and Biology, Kay Lab</b> Help train rats to do olfactory discrimination tasks; learn to record and interpret neural data; assist with electrode implantation surgeries and all other aspects of research in neurophysiology and olfactory psychophysics lab	Chicago, IL
18	Maggie Dillon '18	<b>NOAA (National Oceanic &amp; Atmospheric Administration)</b> Participate in an experimental study entitled, "Analysis of Ocean Acidification and Co-stressor Effects on Fish Early Life Processes"	Highlands, NJ

**Medicine, Science, & Research continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
18	Martin Fischer '21	<b>Living Oceans Foundation</b> Assist with interpreting coral reef data including literature review, database management and preliminary analysis; develop coral reef focused educational activities for high school students; and create fun facts postings for website and social media	Annapolis, MD
18	Nancy Hilton '20	<b>City of Hope</b> Participate in research with Dr. Hong Qin in the Department of Hematology & Hematopoietic Cell Transplantation	Duarte, CA
18	Kirabo Nyanzi '21	<b>City of Hope</b> Participate in research with Dr. Ogembo in the Department of Immuno-Oncology	Duarte, CA
18	Thomas Springer '18	<b>City of Hope</b> Participate in research with Dr. Jeffrey Weitzel in the Department of Population Sciences that looks into the effectiveness of prior research regarding the health outcomes of Hispanic women	Duarte, CA
18	Camille Testa '19	<b>University at Buffalo, Jacobs School of Medicine</b> Study how genetic and epigenetic alterations alter cell function in the context of an illness called juvenile idiopathic arthritis (JIA) by a computational analysis of genomic data; work with group of undergraduate medical and graduate students	Buffalo, NY
18	Qi Zhan '18	<b>University of Chicago, Lab of Mengjie Chen</b> Collect single cell data from iPS cell-derived heart cells across different developmental stages; perform clustering analysis and differential expression analysis using existing methods as well as statistical methods under development in the lab; practice programming intensively	Chicago, IL
17	Jermaine Brown '17	<b>Anne Arundel Medical Center</b> (funded by a grant from Dr. Steve Forman) Collaborate with a physician mentor; participate in and contribute to a current medical research project; learn key criteria and tools for data collection and interpretation; present an abstract of findings	Annapolis, MD
17	Maggie Dillon '18	<b>Khaled Bin Sultan Living Oceans Foundation</b> (funded by a grant from Dr. Steve Forman) Develop critical skills in the marine biology field; conduct research; manage a database and provide data analysis; develop skills needed to educate middle and high school students and teachers about ocean science	Annapolis, MD
17	Huibo "Daisy" Li '17	<b>The London Lab at the University of Chicago</b> (funded by a grant from Dr. Steve Forman) Capture microscope images of molecular brain experiments; perform neuroanatomical and quantitative data collection using those images; perform basic analysis; assist in performing controlled behavioral manipulations	Chicago, IL
17	Erica Seman '17	<b>U. S. Naval Observatory</b> (funded by a grant from Dr. Steve Forman) Learn custom programming for astronomical research as a means to handle large datasets coming from a variety of telescopes to determine the classifications and properties of objects based on standard theoretical models	Washington, DC
17	Alberto Valenzuela '20	<b>The Manila Observatory</b> (funded by a grant from Dr. Steve Forman) Participate in research and data collection on topics related to climate change and environmental issues; provide data analysis; draft papers and briefs; assist in the facilitation of conferences, seminars and round-table discussions	Quezon City, Philippines
16	Jermaine Brown '17	<b>Anne Arundel Medical Center</b> Engage in work with an assigned faculty member in human subject research; learn key criteria and tools for data collection and interpretation; present an abstract of findings	Annapolis, MD
16	Zachary Gold '17	<b>Smithsonian Institution, National Museum of Natural History, Dept. of Paleobiology</b> Study benthic (bottom dwelling) and planktonic (surface dwelling) foraminifera from the Cretaceous age; use a stereomicroscope and a scanning electron microscope; learn techniques for preparing samples, selecting specimens	Washington, DC
16	Andrea Hill '16	<b>Penn Vet Working Dog Center</b> Learn basic K9 handling skills; puppy development and socialization; principles of scent detection; data collection; K9 assessments; K9 behaviors and body language; specialized fitness components for working dogs	Philadelphia, PA

**Medicine, Science, & Research continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
16	Emily Krause '18	<b>Potomac Family Planning Center</b> Learn about women's reproductive health care, including gynecological care, birth control counseling, and abortion care; provide patient support through patient intake and support before, during, and after abortion procedures	Rockville, MD
16	Rachael Langston '19	<b>National Oceanic &amp; Atmospheric Administration (NOAA)</b> Provide support for Capitol Hill Oceans Week; conduct research for a site characterization document for NOAA sites participating in the UNESCO Man and Biosphere Program; help develop and format outreach materials	Silver Spring, MD
16	Owen Morgan '17	<b>Yale School of Medicine, Blumenfeld Lab</b> Investigate mechanisms of conscious visual perception using human intracranial EEG and fMRI data; master background literature, learn and improve upon data acquisition techniques; work with human subjects to gather data	New Haven, CT
16	Erica Seman '17	<b>U. S. Naval Observatory</b> Assist with both the automation and regular observations taken with the recently deployed Celestial Navigation Test Bed (CNTB), which is designed to observe the transition of satellites against the background stars	Washington, DC
15	Ambrose Donnelly '17	<b>University of Chicago, Department of Psychology</b> Capture microscope images of molecular brain experiments utilizing a non-human research animal—the zebra finch, perform data collection using those images and do basic analysis; assist in other behavioral manipulations	Chicago, IL
15	Andrea Hill '16	<b>Conservation Ecology Center at the Smithsonian National Zoo</b> Work with an on-site nutrition lab interested in issues of nutrition related to the costs and consequences of female mammal reproduction; perform lab assays on biological samples; record data and summarize results	Washington, DC
15	Patrick Kelly '16	<b>University of Maryland, Department of Cell Biology &amp; Molecular Genetics</b> Participate in research focused on the evolution of multicellularity in plants and algae; acquire basic skills in molecular biology, bioinformatics, microscopy, and field biology; culture algae; prepare lab solutions & supplies	College Park, MD
15	Lily Kowalczyk '18	<b>Johns Hopkins Medicine Technology Innovation Center</b> Contribute to the full range of data management functions, including identifying the data collection and storage needs of clinical researchers; create a data dictionary; deliver data to statisticians and other analysts in proper format	Baltimore, MD
15	Wanli Ma '16	<b>Fiber Optics &amp; Optical Sensor Laboratory, Uinhuangdao</b> Follow the laser fabrication of PbS-polymer nanocomposite; participate in operating the crystal growing furnace to synthesize the three-dimensional photonic crystal; measure the spectral qualities of photonic crystal	Hebei 066000, China
15	Owen Morgan '17	<b>Yale Neuroscience Imaging Center, Blumenfeld Lab</b> Investigate mechanisms of conscious visual perception using human intracranial EEG and fMRI data while assisting in its collection; master background literature; learn data acquisition techniques; work with human subjects	New Haven, CT
15	Tri Nguyen '17	<b>Advanced Institute for Science and Technology (AIST)</b> Learn to operate a chemical vapor deposition (CVD) system; control the growth conditions of ZnP/ZnS nanorods; learn characterization techniques and make weekly presentations	Ha Noi, Vietnam
15	Christine Rowghani '16	<b>City of Hope, Department of Hematology &amp; Hematopoietic Cell Transplantation</b> Learn how the immune system functions in a lab focused on developing T cell therapies for cancer patients	Duarte, CA
15	Max Silbiger '16	<b>U. S. Naval Observatory</b> Work to program the USNO astrometric camera system for CNTB with the goal to make the camera function fully and to give the camera basic operating functionality; summarize work for a poster presentation	Washington, DC
15	Kip Waite '15	<b>Anne Arundel Medical Center, Clinical Research Program</b> Collaborate with a physician mentor and other professionals in a clinical research setting; collect and analyze medical information; learn key criteria and tools for data collection and interpretation; present an abstract	Annapolis, MD

**Medicine, Science, & Research continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
14	Andrea Hill '16	<b>Dutton Road Veterinary Clinic</b> Assist with veterinary examinations for in-house greyhound adoption program; learn surgery procedures & assist	Philadelphia, PA
14	Sihui Ma '17	<b>Xiangya School of Medicine, Cancer Research Institute, Central South University</b> Conduct research on the disorder of signaling transduction mechanism mediated by Epstein-Barr virus encoded latent membrane protein 1, molecular target therapy and natural chemical prevention in cancers	Hunan, China
14	Ronald Pagano '15	<b>U.S. Naval Observatory</b> Learn how to process optical and infrared data for Ultra-Luminous X-ray (ULX) sources; use archival data	Washington, DC
14	Rohini Pandit '15	<b>U.S. Naval Observatory</b> Learn how to operate the Celestial Navigation Test Bed (CNTB) telescope; observe; calibrate images; research	Washington, DC
14	Michelle Porcelli '14	<b>University of Maryland, Dept. of Physics, Physics Education Research Group</b> Gain a deep understanding of the theories and methods within physics education research (PER); process data	College Park, MD
14	Ojiugo Uche '14	<b>University of Pittsburgh, Neurological Surgery Department, Hillman Cancer Center</b> Participate in research to discover mechanisms of immune system dysfunction primary brain tumors: gliomas	Pittsburgh, PA
13	Esther Apraku Bondzie '16	<b>Tufts University, Advanced Integrated Circuits &amp; Systems Lab</b> Assist with research to develop a wireless optical sensor to non-invasively monitor blood flow in the brain using non-infrared biomedical imaging techniques; use state-of-the-art optical & electrical characterization equipment	Medford, MA
13	Alice Loofbourrow '15	<b>Medical Scribes Program, Anne Arundel Medical Center Emergency Room</b> Assist practitioners with documentation of patient's stay in the ER; trained with electronic medical record system	Annapolis, MD
13	Sidharth Shah '15	<b>George Mason University, School of Physics, Astronomy &amp; Computational Sciences</b> Work on project on black holes in the centers of nearly bulgeless galaxies; learn GALFIT software; work to determine best method for generating spatial profiles of galaxies; search Hubble archive; present research	Fairfax, VA
13	Amritpal Singh '15	<b>U.S. Naval Observatory</b> Work on lab testing and black hole research; use Hubble Space Telescope archival optical data and Siptzer photo-metric analysis of ULXs; learn how to similar star fields; reduce data & quantify astrometric errors; present research	Washington, DC
13	Carolyn Stephen '15	<b>Institute for Mind &amp; Biology, University of Chicago</b> Participate in behavioral analysis of two tasks & their reliance on two different brain circuits; train rats to discriminate odors; perform surgery and associated research	Chicago, IL
13	Alexandra Wick '15	<b>Institute for Behavioral Genetics, University of Colorado</b> Train in techniques in characterization of proteins expressed in the mammalian central nervous system	Denver, CO
13	Siqi Zhao '16	<b>Johns Hopkins University School of Medicine</b> Gain research experience; learn project design, data analysis, and presentation preparation in lab that studies the molecular and cellular mechanisms underlying myoblast (muscle cell) fusion	Baltimore, MD
13	Jinyao Zou '13	<b>Georgetown University Laboratory for Visual Mathematics</b> Strengthen skills in mathematics and computer science by working on: Mathematical Analysis of Drawings of Circulant Graphs and Design & Implementation of Combinatorial Algorithms.	Washington, DC
12	Domenick Bauer '12	<b>Prometheus Fusion Perfection</b> Research involved with reproducing a Polywell nuclear fusion research reactor	Brooklyn, NY
12	Jennifer Dalton '13	<b>City of Hope</b> Hone laboratory skills while completing ongoing project; write scientific manuscript for publication	Duarte, CA
12	Andrew Donders '12	<b>Naval Research Laboratory (NRL)</b> Participate in SWORD program (SoftWare for the Optimization of Radiation Detectors); assist with further development of the SWORD package; expand standard library; test graphical interface; support simulation efforts	Washington, DC

**Medicine, Science, & Research continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
12	Cinar Doruk '13	<b>Institute for Mind &amp; Biology</b> Learn to train rats to perform odor discriminations; surgical manipulations on rats & mice; assist with data analysis	Chicago, IL
12	Adam Maraschky '13	<b>Department of Electrical Engineering, University of Maryland:</b> Learn basic lab materials and procedures; conduct research on solar cell technologies; focus on optimizing thin film photovoltaics with quantum dots	College Park, MD
12	Jonathan Tincher '12	<b>U.S. Naval Observatory</b> Participate in black hole research; learn to process X-ray, optical, and infrared data for Ultra-Luminous X-ray sources; use published data to characterize the environments of the ULXs investigated	Washington, DC
11	Chelsea Adams '12	<b>U.S. Naval Observatory:</b> Characterize a high-accuracy astrometric & photometric camera; perform research used to calibrate star positions, motions, & parallaxes	Washington, DC
11	Julia Berggren '12	<b>University of Michigan, Department of Entomology</b> Lab & fieldwork to research bee behavior & ecology: data collection, data entry, statistical analysis	St. Paul, MN
11	John Fleming '12	<b>Colorado State University, Department of Biology:</b> Develop molecular biology techniques; assist with studies on the influence of plant cell wall proteins on the efficiency of lignocellulosic biomass conversion to biofuels	Ft. Collins, CO
11	Luke Wakeen '12	<b>University of Hawaii, Hawaii Institute of Marine Biology:</b> Study coral population dynamics in the Hawaiian Archipelago; data collection, model development; coral identification & image analysis	Hawaii
11	Samantha Weber '13	<b>RetroTherapy</b> Learn & perform standard molecular biology laboratory techniques including DNA, RNA, and plasmid purification, RT-PCR, cloning, gel electrophoresis, transfection, and sterile cell culture technique	Rockville, MD
11	Audra Zook '13	<b>University of Maryland School of Medicine:</b> Research in the department of endocrinology, and diabetes metabolism in the Department of Medicine; study includes an extensive Amish population	Baltimore, MD
10	Raphaela Cassandra '10	<b>U.S. Naval Observatory:</b> Assist in optics laboratory experiments calibrating set-up & testing detectors; analysis tasks; develop an observing target list; research	Washington, DC
10	Joshua DeSilva '12	<b>Johns Hopkins University, Department of Philosophy:</b> Research on digital history project related to quantum mechanics that involves accumulation & digitalization of primary source materials	Baltimore, MD
10	John Fleming '12	<b>Tulane University, Tulane Cancer Center:</b> Assist with studies on association of human mobile genetic elements with DNA damage, cancer, and aging; lab work; training; perform experiments	New Orleans, LA
10	Katherine Kolodzie '12	<b>Hunter Laboratories, Inc.:</b> Monitor the HPV/Biopsy data comparison plus analysis of cost savings of early diagnosis of HPV to prevent Colposcopy in women 25 years & older	Campbell, CA
10	Maggie Mohr '12	<b>Florida Atlantic University, Center for Complex Systems &amp; Brain Sciences</b> Create experimental stimuli on computer; organize musical & scientific databases; run computer simulations	Boca Raton, FL
10	Sam Paskewitz '10	<b>Institute for Mind &amp; Biology, University of Chicago</b> Train rats to perform odor discriminations, analyze data, & help with surgical procedures	Chicago, IL
10	Kaitlyn Schuler '11	<b>University of Maryland, Mary Ann Ottinger Laboratory, Animal Sciences Dept.:</b> Investigate effect of PCBs on the expression of hepatic genes; learn molecular techniques such as RNA & DNA extraction	College Park, MD
10	Justin (JP) Snyder '10	<b>Boston College, Department of Psychology:</b> Research neural mechanisms of human visual perception, explore aspects of object recognition; use Eprime research software suite	Chestnut Hill, MA
10	Luke Wakeen '12	<b>City of Hope:</b> Participate in origins of genetic code project with theoretical biologist	Duarte, CA
09	Alyssa Bernanke '09	<b>UC-Davis School of Veterinary Medicine:</b> Research adult-derived equine stem cells for bone & tendon repair in horses	Davis, CA
09	Andrew Donders '12	<b>Institute for Mind &amp; Biology, University of Chicago</b> Interaction of brain & immune system in generating symptoms of infection	Chicago, IL

**Medicine, Science, & Research continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
09	Katherine Hale '09	<b>National Museum of Natural History, Smithsonian Dept. of Paleobiology</b> Attempt to capture development of biological info. on fossil plants—giant lycopsids	Washington, DC
09	Andrew Mize '12	<b>Sanders-Brown Center on Aging:</b> Research examining redox-regulation in Alzheimer's disease pathogenesis	Lexington, KY
09	Alexandra Munters '09	<b>Institute for Mind &amp; Biology, University of Chicago</b> Identify by sight study animals in Cayo Santiago macaque population	Chicago, IL & Puerto Rico
09	Kristin Peterson '11	<b>National Institutes of Health:</b> Research in the NIAID on DNA and blood samples relating to immune function	Bethesda, MD
09	Justin Snyder '10	<b>Franklin &amp; Marshall College, Dept. of Psychology, Cognitive Psychology</b> Enlarge the size of brain-imaging database & analyze collected data	Lancaster, PA
09	Warren Scott Weber '09	<b>Anne Arundel Medical Center, Emergency Department Scribe Program</b> Patient documentation in the ED, coding, brief history, meds, vital signs	Annapolis, MD
09	Jessica Zimmerberg-Helms '09	<b>Institute for Mind &amp; Biology, University of Chicago</b> Train rats to do simple operant responding task and deliver drugs to brain	Chicago, IL
08	Megan Field '10	<b>La Familia Medical Center:</b> Educate clients about prenatal care, breastfeeding, diabetes treatment	Santa Fe, NM
08	Jean Hogan '10	<b>University of Maryland, Department of Biology</b> Investigate socially influenced learning in a live bat research lab, analyze data	College Park, MD
08	Philip Lazarra '08	<b>Institute for Mind &amp; Biology, University of Chicago</b> Test rats & mice while assisting in physiology procedures, data analysis	Chicago, IL
08	Dalton Lobo Dias '09	<b>National Institutes of Health:</b> Perform research with Dr. Steven Holland	Bethesda, MD
08	Dylan Sherry '08	<b>National Institute of Mental Health, Laboratory of Neuropsychology</b> Examine primate behavior, research discussions, assist in neurosurgery	Bethesda, MD
08	Patrick Weller '08	<b>National Institute of Mental Health, NIH:</b> Work with Dr. David Leopold assisting in animal training and testing	Bethesda, MD
07	Anna Dirkse '09	<b>National Institute of Mental Health, NIH</b> Investigate neurobiological mechanisms in learning & memory in primates	Bethesda, MD
07	Jonathan English '10	<b>University of Maryland, Cell Biology &amp; Molecular Genetics</b> Comparative analysis of early development of Coleochaete, a green algae	College Park, MD
07	Samantha Enns '08	<b>National Institutes of Health:</b> Perform studies of cell adhesion & migration & receive lab training	Bethesda, MD
07	April Sharp '07	<b>Uniformed Services University of Health Sciences (USUHS)</b> Research role of specific group of cell surface proteins on communication	Bethesda, MD
06	Joseph Daniels '06	<b>National Institutes of Health:</b> Molecular-cell biology lab assisting with lab procedures	Bethesda, MD
06	Rachel Gottlieb '07	<b>Wake Forest University School of Medicine, Dept. of Psychiatry</b> Group psychotherapy that explores age differences in anxiety & depression	Winston-Salem, NC
06	Charles Hamm '08	<b>Goddard Space Flight Center:</b> Learn about planetary remote sensing neutron and gamma ray spectroscopy	Greenbelt, MD
06	William Kelly '07	<b>National Institute of Standards &amp; Technology (NIST)</b> Design, setup, and operate experimental apparatus in optics lab; data-taking	Gaithersburg, MD
06	Marcos Mar '07	<b>National Institute of Mental Health, Unit of Cognitive Neurophysiology &amp; Imaging</b> Work with primates, design tasks in human psychophysics	Bethesda, MD
05	Anna Biegelsen '08	<b>Uniformed Services University of Health Sciences (USUHS)</b> Perform biomedical research projects with Dr. Symes in neuropharmacology lab	Bethesda, MD
05	James Harrison '05	<b>Johns Hopkins Dept. of Psychiatry &amp; Behavioral Sciences</b> Clinical rounds on general and specialty psychiatry (eating disorders)	Baltimore, MD
05	Katheryn Norris '06	<b>Applewood Centers, University Hospital:</b> Research to improve the assessment of juvenile bipolar disorder	Cleveland, OH

**Medicine, Science, & Research continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
04	Rhiannon Dowling '04	<b>EcoSystems Institute:</b> Environmental research project assigned by Dr. David Strayer	Millbrook, NY
03	Enjoli Cooke '04	<b>National Institutes of Health:</b> Biomedical research projects assigned by Dr. Peggy Zelenka	Bethesda, MD
03	Casey Moore '03	<b>University of Washington, Oceanography</b> Study geological, chemical, & biological processes associated with hot spring systems on seafloor	Seattle, WA
03	Todd Robinson '04	<b>Uniformed Services University of Health Sciences (USUHS)</b> Biomedical research projects assigned by Dr. Brian McCarthy	Bethesda, MD
02	Amelia Adams '02	<b>National Institutes of Health:</b> Allergy & infectious disease research assigned by Dr. Steven Holland	Bethesda, MD
02	Aurora Cassells '04	<b>National Institute of Standards &amp; Technology</b> Upgrade instrument that determines crystal structure of various materials	Gaithersburg, MD
02	John Horton '03	<b>Uniformed Services University of Health Sciences (USUHS)</b> Research projects assigned by Dr. Aviva Symes relating to molecular biology	Bethesda, MD
02	Stephanie Porcaro '03	<b>Center for the Promotion of Child Development through Primary Care</b> Development of interactive system for use in pediatric primary care setting	Annapolis, MD
02	Julia Strickler '03	<b>Texas Center for Biological Medicine</b> Art of biological/therapeutic medicine—adaptation, regulation, regeneration, & self-healing	Dallas, TX
01	Emily Baldwin '03	<b>Uniformed Services University of Health Sciences (USUHS)</b> Research assigned by Dr. Symes on specific proteins in gene transcription	Bethesda, MD
01	Elizabeth Burbridge '03	<b>Stanford School of Medicine, Health Careers Opportunity Program</b> Exposure to a variety of options in primary care, research, and teaching	Palo Alto, CA
01	Cara Gormally '02	<b>Uniformed Services University of Health Sciences (USUHS)</b> Research with Dr. Jacobowitz relating to thalamic eminence and calretinin	Bethesda, MD
01	Jason Rees '01	<b>Naval Research Laboratory:</b> Analyze & organize data from the Argos satellite for publication in journals	Washington, DC
01	Rachel Roccia '02	<b>National Institutes of Health:</b> Research with Dr. Holland relating to mycobacterial disease	Bethesda, MD
01	Rachael Seay '02	<b>Denver Health Hospital, Obstetrics/Gynecology Clinic</b> Shadowed physicians in a variety of clinical settings (pure shadowing is no longer an option)	Denver, CO
00	Ethan Carrier '00	<b>Institute for Medical Humanities, University of Texas Medical Branch</b> Ethics consultation service with community-based projects, hospice, etc.	Galveston, TX
00	Kevin Crandell '00	<b>United States Naval Academy, Department of Physics</b> Analyze core-samples to learn about geophysical evolution in underwater environment	Annapolis, MD
00	Timothy Daniels '01	<b>Naval Research Laboratory (NRL):</b> Research with Drs. Russ & Jill Dahlburg on computational fluid dynamics	Washington, DC
00	Robert Dickson '00	<b>Manhattan Veteran Affairs Medical Center</b> Compared effectiveness of two methods of heart treatment: angioplasty & coronary bypass, w/Dr. Sedlis	New York, NY
00	Lillian Pritchard '00	<b>Uniformed Services University of Health Sciences (USUHS)</b> Research relating to brain injury/neurological trauma with Dr. Symes	Bethesda, MD
00	Jason Rees '01	<b>Naval Research Laboratory (NRL):</b> Analyze & organize data from the Argos satellite for publication in journals	Washington, DC
00	Alan Rubenstein '00	<b>Uniformed Services University of Health Sciences (USUHS)</b> Apply new techniques for detection of atypical calcium stores in pig & rat myocardium	Bethesda, MD
00	Lauren Shofer '02	<b>Bellevue Hospital, Project Health Care:</b> Learn about medical issues delivering quality service in emergency care	New York, NY

## Museum & Archival (41)

Yr	Name & Class	Internship	Location
19	Jacob Burger '19	<b>Maryland State Archives</b> Work with the digital archivist manager as an imaging services intern; explore the work of other departments	Annapolis, MD
18	Heather Boning '18	<b>Maryland State Archives</b> Work in Special Collections learning how to preserve mostly books and papers by surveying incoming materials, documenting their condition, and providing appropriate interventions	Annapolis, MD
18	Anna Seban '20	<b>Crocker Art Museum</b> Gain knowledge of museum education programming by working with experienced instructors; observe a variety of teaching styles; participate in program development from start to finish gaining knowledge of object-based teaching using art as objects	Sacramento, CA
17	Hannah Peterson '18	<b>Smithsonian Center for Folklife and Cultural Heritage</b> Assist with the educational efforts leading up to and during the festival with the "Circus Arts" program; work with visiting groups of educators and assist with the 50 <sup>th</sup> Anniversary Reunion weekend	Washington, DC
17	Sophy Schulman '17	<b>Barnes Foundation</b> Work in the editorial and publications department at the museum providing editing, proofreading, fact-checking, and other administrative tasks; create schedules and manage small projects	Philadelphia, PA
17	Wesley Sonheim '17	<b>Maryland State Archives</b> (this is a joint venture with SJC and the Archives) Receive full exposure to the activities of the Archives, participating in the work of several of the departments with the option to explore an individual interest	Annapolis, MD
16	Cora Allen '18	<b>New Britain Museum of American Art</b> Learned the time and effort that goes into running a museum by experiencing a variety of projects, including budgeting, copyright policies, creating children's programs and researching upcoming exhibits	New Britain, CT
16	Catherine Baldwin '18	<b>NASA History Program</b> Handle a wide variety of information requests; edit historical manuscripts; conduct historical research and writing; manage social media engagement	Washington, DC
16	Mary Kate Eckles '16	<b>Maryland State Archives</b> Work with Special Collections and the Conservation Lab to evaluate the newspaper collection held at the Archives—assessing condition, inventorying, updating information, rehousing and relocating in the stacks	Annapolis, MD
16	Cyrus Multhauf '18	<b>Chicago History Museum and Pritzker Military Museum &amp; Library</b> Receive an introduction to the museum profession (Chicago History); participate in recording oral histories of local veterans; assist with advertising and development to take the lead role in veteran interviews (Pritzker)	Chicago, IL
15	Mary Kate Eckles '16	<b>National Archives &amp; Records Administration:</b> Assist on a digitalization project of the naval deck log and provide quality control and replacement for missing images; describe records for a guide	College Park, MD
15	Qiu Lin '15	<b>Hainan Dong-po Academy of Calligraphy and Painting</b> Help organize seminars, art exhibits, public speeches, and an annual symposium; conduct background research for catalogs; display exhibit objects; write website materials; plan, organize, interpret and present exhibitions & lectures	Hainan, PR, China
15	Linnea Payne '16	<b>Maryland Hall for the Creative Arts &amp; McBride Gallery</b> Maryland Hall: assist with installing exhibits and with the artist-in-residence program. McBride Gallery: participate in art installation for exhibits, art sales, art inventory, framing; show receptions and customer follow-up	Annapolis, MD
15	Xiuyuan Zhang '17	<b>Renmin University of China, Department of Language &amp; Literature</b> Participate in research of "The Development of Ancient Chinese Character Patterns in Ch'in, Han, Wei, Jin, Nan, and Bei Dynasties"; discover and analyze different systematics laws of character patterns; conduct literature review	Beijing, China

**Museum & Archival continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
14	Mary Kate Eckles '16	<b>Chase Lloyd House/Chase Home</b> Research historic & present day aspects of the Chase Lloyd House & home including occupants from 1769 to 1826	Annapolis, MD
14	Qiu Lin '15	<b>Hainan Provincial Cultural Heritage Research Association</b> Participate in oral history research interviewing eight veterans of the Red Woman Army, most of whom are over 80 and witnessed and experienced the civil war of the region; record and process texts	Haikou/Hainan, China
14	Lyra Meurer '16	<b>William Paca Garden at Historic Annapolis</b> Maintain & harvest an heirloom vegetable garden; design & research an aspect of garden history creating an exhibit	Annapolis, MD
13	Kurt Strom '13	<b>Holden Historical Society</b> Document a collection of letters, receipts, tintypes, and cart de visites circa 1820-1830; put all in electronic form	Holden, MA
12	Michael Janakis '12	<b>Banneker-Douglass Museum</b> Help organize & preserve over 5,000 photographs, negatives, & slides from the museum's archives	Annapolis, MD
11	Rachel Hahn '13	<b>Saginaw Art Museum</b> Practical & theoretical training in museum work; learn about museum's role in contemporary society	Saginaw, MI
11	Kathryn Lewis '11	<b>Smithsonian American Art Museum, Office of Education:</b> Review & assess program models of other institutions, analyze best practices to improve teacher programs; research; develop new programs	Washington, DC
10	Kathryn Lewis '11	<b>Smithsonian American Art Museum, Office of Education</b> Research artworks from the permanent collection utilizing curatorial files & American Art/Portrait Gallery library	Washington, DC
09	Margaret Ansell '10	<b>Smithsonian Institute Archives:</b> Library & information science exposure with individualized projects	Washington, DC
09	Katherine Havard '12	<b>J. Paul Getty Museum:</b> Research objects in exhibit: "The Art of Ancient Greek Theater" and interpret	Los Angeles, CA
09	Patrick Jones '09	<b>The Papers of Thomas Jefferson, Princeton University</b> Transcribe & annotate Jefferson's documents, conduct historical context research	Princeton, NJ
08	Cecelia Corrigan '09	<b>New York State Archives:</b> Records management experiences through conservation, reformatting, etc.	Albany, NY
08	Kevin Finson '11	<b>College Park Aviation Museum:</b> Education programs and tours with interpretive & educational museum	College Park, MD
08	Jennifer Swanson '10	<b>Bannecker Douglas Museum:</b> Five-phase project to advance the Museum's control of its research collection	Annapolis, MD
07	Emily Tordo '07	<b>Boston Museum of Science, Science Library</b> Work with the collection, new materials, circulation desk, research, & special projects	Boston, MA
05	Rachel Gottlieb '07	<b>Children's Museum of Winston-Salem:</b> Interact with museum guests of all ages & educate about exhibits	Winston-Salem, NC
05	Daniel Houck '06	<b>Mesa Southwest Museum:</b> Engineer & fabricate exhibits in wood, metal, fiberglass, & plastics	Mesa, AZ
05	Mira Johnson '07	<b>Institute for Cultural Partnerships:</b> Directly develop aspects of state museum exhibit installation	Harrisburg, PA
05	Daniel Rekshan '06	<b>Smithsonian Institute Archives:</b> Assemble core information about the Smithsonian buildings, 1846-present	Washington, DC
04	Erin Hughey-Commers '05	<b>Miller Center of Public Affairs/Nelson County Museum of Rural History</b> Research backgrounds of visiting speakers, assist with historical forums	Lynchburg, VA
04	Christopher Utter '05	<b>Cleveland Museum of Art:</b> Identify artifacts based on previous catalog & auction records	Cleveland, OH
03	Rachel Hall '05	<b>Library of Congress, American Folklife Center</b> Document & index archival material from Storytelling Collection	Washington, DC
03	Laura Mangum '04	<b>Texas Memorial Museum:</b> Education techniques & program content relating to programs, exhibits, etc.	Austin, TX
02	Brianne Seymour '04	<b>Maryland State Archives:</b> Process, manage, and interpret archival collections	Annapolis, MD
01	Kristin Masser '01	<b>Maryland State Archives:</b> Exhibit formulation and design, graphic design, web design, cataloging	Annapolis, MD
01	JoElla Straley '02	<b>Maryland State Archives:</b> Exhibit formulation and design, graphic design, web design, cataloging	Annapolis, MD
00	Maro Cassimatis '01	<b>Maryland State Archives:</b> Interpreted archival collection with use of computer technology	Annapolis, MD

## Non-Profits & Community Development (31)

Yr	Name & Class	Internship	Location
19	Michael Riggins '21	<b>Davenant Institute</b> Assist with fundraising and networking; help with preparations for a residential student ministry program; undertake a strategic self-study of the organization reviewing internal data, compiling additional data, and interviewing others to aid in strategic planning and program development	Moscow, ID
19	Hung "Jay" Tram '20	<b>Children's Defense Fund</b> Support the CDF development team; help develop compelling, high-quality proposals for fundraising; conduct research on potential grants and on the needs of low-income and poor children and youth; assist with grant proposal process from start to finish	Washington, DC
19	Ece Nur Tuglu '21	<b>SETA Foundation for Political, Economic &amp; Social Research</b> Assist with research, data gathering and analysis for the Security Studies department; conduct literature review; write research papers; monitor web sources for SETA-related content; help prepare for and assist in events, such as conferences or hearings	Ankara, Turkey
18	Nishan Dhungel '20	<b>Green Tara Nepal</b> Facilitate and support health promotion activities; meet with local health care departments and community partners; help develop a training curriculum; investigate health behaviors and outcomes and present findings	Kathmandu, Nepal
18	Sagar Gaire '19	<b>EduVision Foundation</b> Help implement youth motivation projects; train and help youth to conduct their own environmental sustainability projects; learn to plan and develop projects after identifying need and create proposals for grants and partnerships	Makawanpur, Nepal
18	Benjamin Haas '19	<b>Adventure Works of DeKalb County</b> Engage in the daily operation of an outdoor behavioral healthcare organization guiding youth in overcoming life challenges; be exposed to organizational systems, financial and other challenges, and outcomes measurement	DeKalb, IL
18	Beimnet Kebede '20	<b>Digital Green</b> Help create a series of videos designed to teach farmers more modern ways of farming; educate and provide them with the tools to implement new ideas; gain knowledge of finances and operations for an international company	Addis Ababa, Ethiopia
17	Dahye "Diana" Kim '19	<b>Space Noon</b> Assist with art exhibitions; translate documents on the exhibitions from Korean to English; focus on publicity to reach foreign tourists to promote the Hwaseong Fortress District; work on projects to conserve the cultural asset	Suwon-sit, Kyeonggi-do, South Korea
17	Kevin Lam '18	<b>Asian Pacific American Labor Alliance</b> Draft media advisories, press releases, opinion editorials and letters to the editor; monitor coverage of AAPI worker issues; update social media accounts; plan and implement campaigns that engage with AAPA communities	Washington, DC
17	Nano Liklikadze '18	<b>Transparency International Georgia</b> Assist with logistics for events; perform Georgian to English translation and/or interpretation; conduct online research; analyze data; attend events and report to project teams; monitor media reports and prepare staff briefings	Tbilisi, Georgia
17	Ashleigh Mierau '17	<b>William Way LGBT Community Center</b> Provide program and administrative support and development to an organization that serves the LGBTQ community; have hands-on experiences working to better understand community needs and empowerment models	Philadelphia, PA
16	Sagar Aryal '18	<b>Center for Environment Education Nepal</b> Assist with development of creative promotional content for fundraising and workshops; coordinate with outreach manager to create content for newsletter and web development	Lalitpur, Nepal

***Non-Profits & Community Development continued:***

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
16	Richa Bhattarai '18	<b>Partnership for Transparency Fund</b> Develop profiles of past projects for the website; map past funders and identify future funders; assist with research on governance and anti-corruption issues in World Bank Country Assistance Strategies	Washington, DC
16	David Conway '16	<b>Project Vote Smart</b> Participate in a program that provides free, factual, unbiased information on candidates and elected officials; research candidate's past positions, write news releases, Congressional key vote summaries, and update bios	Philipsburg, MT
16	Nathan Huey '17	<b>Human Capital Research Collaborative</b> Provide literature reviews; assist with data collection, conference planning and organizing, condensing research studies for lay audiences, co-authoring blog posts; reviewing reports	Minneapolis, MN
16	Nano Liklikadze '18	<b>United Nations Development Program (UNDP) Georgia</b> Acquire experience with the United Nations system; assist at public events, press conferences, presentations, and briefing sessions; assist in developing photo and video reports and articles; assist with the social media profile	Tbilisi, Georgia
16	Sawyer Neale '18	<b>Common Cause Pennsylvania</b> Receive first-hand experience in government affairs and operations of interest groups; participate in program development and field organizing for the 2016 election cycle; some lobbying	Harrisburg, PA
16	Jon Shrestha '17	<b>Environmental Development and Conservation Legal Forum</b> Aid legal staff to research and screen cases in a non-profit environmental legal organization working toward improving the environment of Nepal; create and present awareness materials	Anamnagar, Nepal
15	William Brown '16	<b>Disciples Center for Public Witness, Religion, Advocacy, and Democracy Program</b> Coordinate activities for others to provide research, writing, planning, organizing and outreach for on-going project	Washington, DC
15	Camille Gagnier '17	<b>Witness for Peace</b> Track legislation, write analyses for action alerts and newsletters, represent WFP in coalition meetings; support the WFP mission to change US foreign and economic policies in Latin America and the Caribbean	Washington, DC
15	Day Harper '15	<b>River Road Unitarian Universalist Congregation</b> Study the creation of social justice education tools; study and participate in community organization work by working with Action in Montgomery (AIM); provide assistance in religious education programs	Bethesda, MD
15	Noe Jimenez '16	<b>Added Value:</b> Help to oversee the Youth Empowerment Program for high school youth; work alongside youth on the farm; provide support workshops and training; assist with administrative tasks	Brooklyn, NY
15	Jakub Piven '17	<b>Seeds of Peace</b> Curate and prepare educational materials to create an online resource for website; look for additional resources relevant to educators working in conflict areas; provide support for local activities for an international camp	New York, NY
15	Frances Webb '16	<b>Food &amp; Water Watch</b> Conduct education, outreach, and engagement activities, including petitioning, helping with events, phone banking, and other activities designed to advocate for safe food, clean water, and healthy oceans; research; media outreach	Brooklyn, NY
14	Emily Grazier '16	<b>Franklin Park Conservatory &amp; Botanical Gardens</b> Assist with educational programs teaching food, cooking, & nutrition; work with inner city community garden	Columbus, OH
14	Clifton Mobbs '16	<b>Motor City Blight Busters</b> Assist & learn about the grant-writing process; prepare grant for restoration project aimed at helping veterans	Detroit, MI
13	Amy Stewart '13	<b>American Lung Association in Pennsylvania</b> Work with tobacco control & prevention programs to assist in development, implementation, & evaluation of public health programs focused on youth prevention & education; assist in website design & social media messaging	Camp Hill, PA

**Non-Profits & Community Development continued:**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
13	Ojiugo Uche '14	<b>Wecyclers</b> Collect data & provide analysis to understand company's impact & project into future; provide Reduce, Reuse, & Recycle outreach and education; develop upcycling and eco-craft workshops; sign up households to program	Lagos, Nigeria
13	Victoria Wick '15	<b>Providence Network</b> Research art therapy programs, speak with art therapists, become familiar with how art is used in the Denver non-profit world; develop a group art therapy curriculum to meet needs of a faith-based transitional housing group	Denver, CO
09	Anne Frazier '10	<b>Brady Center to Prevent Handgun Violence</b> Develop educational materials & research skills, compile statistics	Washington, DC
06	Stacey Goguen '08	<b>Project Vote Smart</b> Research & summarize congressional and state level legislation	Phillipsburg, MT

**Psychology, Mental Health & Social Sciences (42)**

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
19	Cordelia Achen '19	<b>Harvard University, Laboratory for Developmental Studies</b> Work with a primary researcher recruiting and scheduling child participants and their families; test children; perform data analysis; and aid in the design of new studies for developmental psychology lab	Cambridge, MA
19	Sanju Baral '20	<b>Psychbigyaan Network Nepal</b> Support organization with research, activism and publications related to psychology; conduct interviews with prominent psychologists of Nepal; and attend weekly psycho-educational seminars	Kirtipur, Nepal
19	Samuel Berrettini '21	<b>Boston University, Social Learning Lab</b> Work with children and gain experience with psychological research in education and social cognition; assist in subject recruitment, interaction with siblings, parents and families; assist with child and adult participants, stimuli creation, and data analysis	Boston, MA
19	Matteo Burrell '19	<b>University of California, Berkeley, Language &amp; Cognitive Development Lab</b> Assist with data collection; work on stimuli creation and preparation of study materials; read relevant theoretical and empirical papers; recruit participants; process or analyze data; attend weekly lab meetings and reading groups to discuss the theory behind the research projects; and present the project	Berkeley, CA
19	Lester Fu '22	<b>University of California, Berkeley, Language &amp; Cognitive Development Lab</b> Assist with data collection; work on stimuli creation and preparation of study materials; read relevant theoretical and empirical papers; recruit participants; process or analyze data; attend weekly lab meetings and reading groups to discuss the theory behind the research projects; and present the project	Berkeley, CA
18	Catherine Baldwin '18	<b>Boston University, Social Learning Lab</b> Participate in research that addresses how children learn from adult explanations, specifically in STEM contexts; learn data entry, study design development, participant recruitment and poster presentation	Boston, MA
17	Elaina Bowman '20	<b>House of Ruth, Maryland</b> Observe psycho-educational group sessions; participate in briefing and debriefing with group facilitators; conduct intake interviews; assist participants in completing documents; provide administrative support	Baltimore, MD
17	Jiangxue Ning '17	<b>The Mind Perception &amp; Morality Lab, UNC Chapel Hill</b> (funded by a grant from Dr. Steve Forman) Design surveys; collect and analyze data in a social psychology lab exploring research around minds as a matter of perception; examine morality's structure and the myth of harmless wrongs as well as suffering and religious beliefs	Chapel Hill, NC

***Psychology, Mental Health & Social Sciences:***

<b>Yr</b>	<b>Name &amp; Class</b>	<b>Internship</b>	<b>Location</b>
16	Jenna Alton '16	<b>University of Colorado Social Neuroscience Lab</b> Examine how the brain processes faces of different races in order to understand how race affects face perception by determining spatial frequency information by recording ERPs; assist with subject recruitment	Boulder, CO
16	Sebastian Barajas '17	<b>American Institute for Behavioral Research &amp; Technology</b> Perform literature reviews, test development, data analysis, manuscript drafting; provide assistance with writing a book all in a collaborative environment	Vista, CA
