The internships listed here are a modest selection from the thousands of internships available nationwide. Please visit the listed website for more detailed information about the internship and its requirements. The Career Services Office can help you with any additional questions you may have. Many of the unpaid summer internships may be appropriate for Hodson Internship funding. Please refer to the Hodson Internship brochure for program details or come by our office for more information.

**Journalism, Communications, Media**

**Accuracy in Media, American Journalism Center**, Bethesda, MD

The American Journalism Center (AJC) was launched to provide aspiring conservative student journalists with guidance from experienced media professionals that would encourage them to pursue careers in mainstream journalism. The AJC offers internships in journalism, public relations, and marketing. Applications are welcome from students in any academic field.

**Eligibility:** Open to undergraduates, recent graduates, and graduate students  
**Application deadline:** April 1, 2020  
**Stipend:** All interns will be paid a small fee for every article published plus a bonus based on web traffic to a maximum of $2,500 for the duration of the internship; twelve-week commitment  
**Visit:** [www.aimajc.org](http://www.aimajc.org)

**Maryland Public Television (MPT),** Owings Mills, MD

Interns gain valuable experience in television programming, development, and co-production. Internship opportunities may include: institutional advancement/major and planned giving, content enterprises, production assistant, assistant to special projects unit, education and community outreach, website information assistant, *Motorweek*, programming, program guide/newsletter, and development assistant.
Eligibility: Open to undergraduate and graduate students interested in public broadcasting
Application deadline: April 1, 2020
Stipend: Unpaid
Visit: [www.mpt.org/about/careers/internships](http://www.mpt.org/about/careers/internships)

**Libraries**

**Teaching with Primary Sources Internship at the Young Readers Center, Library of Congress, Office of the Librarian, Washington, DC**

Hosted by the Center for Learning, Literacy, and Engagement, the Young Readers Center (YRC) at the Library of Congress seeks interns to support the daily operation of the YRC and help it more closely align its programming for pre-K through 16-year-old audiences with Library of Congress digitized collections. Interns will gain high-quality experience while working alongside Library staff to devise, test and disseminate approaches for offering enriched, primary source-based programming for pre-K through 16-year-old visitors.

Interns will engage child visitors and their families with primary source and collection-based activities; learn about the Library, its collections and programs; help to plan, lead and support primary source-based YRC programming; design and implement a special project as described in the application materials; conduct research and consult with Library experts to support YRC programming; and plan and help lead a webinar for the Library’s grantees focused on using Library of Congress materials for K-12 education in collaboration with a Teaching with Primary Sources Consortium member.

The internship is offered twice yearly (Fall and Spring terms). They select one Young Readers Center intern per term. Applicants who are selected as interns must confirm their availability to work in the Young Readers Center during the term specified. Interns will participate in an orientation (including online trainings) to the YRC, the Learning and Innovation Office and its programming for teaching, and the Library of Congress and its various reading rooms, services and collections.

Eligibility: Open to undergraduate and graduate students who are U.S. citizens
Application deadline: Applications are accepted between: March 30, 2020 and May 4, 2020
Stipend: Each intern will receive a monthly stipend of $500, plus $255 per month for local transportation, and up to $1,000 monthly to offset documented housing costs. Interns living outside of the Washington, DC metro area will receive a travel allowance of up to $1,000 to help pay for travel to and from DC at the beginning and end of their internship.
Program Duration: Short-term. Fall and Spring terms.
Visit: [https://www.loc.gov/item/internships/young-readers-center-volunteer-internship-program/](https://www.loc.gov/item/internships/young-readers-center-volunteer-internship-program/)

**Medical & Humanitarian**

**CARE USA, Atlanta, GA and other U.S. field offices**

CARE’s mission is to serve individuals and families in the poorest communities in the world. CARE USA welcomes and encourages students who are interested in making a difference in the world to consider pursuing an internship. The internship program seeks to provide closely monitored,
project-driven professional and practical experience for undergraduate and graduate students interested in contributing to substantive CARE projects and initiatives.

**Eligibility:** Open to juniors, seniors and graduate students  
**Application deadline:** Apply in April or May  
**Stipend:** Unpaid, you must have financial support from an academic agency  
**Visit:** [https://www.care.org/careers](https://www.care.org/careers), go to Search for an Internship/Fellowship (near bottom of page)

**Mercy Corps**  
**Washington, DC, Portland, OR, Cambridge, MA and Seattle, WA and Globally**

Mercy Corps’ mission is to alleviate suffering, poverty, and oppression by helping people build secure, productive, and just communities. Interns who aspire to be international development professionals receive a chance to do real-world research, learn the ins and outs of global relief and development work and gain exposure to a full range of nonprofit management issues. Mercy Corps recruits interns as needed for its headquarters departments. A limited amount of international field internships are also available each summer.

**Eligibility:** Open to undergraduates, recent graduates, and graduate students  
**Application deadline:** Rolling  
**Stipend:** Unpaid  
**Visit:** [https://www.mercycorps.org/careers/internships](https://www.mercycorps.org/careers/internships)

**Museum & Arts**

**The Art Institute of Chicago, Chicago, IL**

Interns may lead a gallery talk featuring original works of art; participate behind the scenes in building marketing strategies, financial analysis, technical support, merchandising, and other resource areas that support the institution.

**A major in art history or fine art is not essential.**

The Art Institute of Chicago works to ensure that interns receive an educational and valuable experience while engaging with a skilled team of professionals. As an intern, you will complete various tasks related to department initiatives, while collaborating with industry experts. This includes, and is not limited to, assisting in daily departmental activities, taking part in special projects, and research opportunities. You will be expected to not only gain valuable skill sets and learn about workplace interactions, but also gain further insight into your professional interests.

**Eligibility:** Open to undergraduates, graduate students or recent graduates  
**Application deadline:** deadlines vary, check website  
**Stipend:** Depends on the department, most are unpaid  
**Visit:** [https://www.artic.edu/careers/internships](https://www.artic.edu/careers/internships)
**Museum of Contemporary Art, Chicago (MCA) Chicago, IL**

The MCA internship program welcomes students and recent graduates who wish to broaden their education and professional experience by working and learning in a not-for-profit museum. All MCA departments offer experiential education in a challenging, hands-on environment in exchange for a substantive contribution from talented and interested individuals.

**Eligibility:** Open to undergraduates, recent graduates, and graduate students

**Application deadline:** March 17, 2020

**Stipend:** Unpaid

**Visit:** [https://mcachicago.org/About/Internships](https://mcachicago.org/About/Internships)

---

**Whitney Museum of American Art, New York, NY**

The Whitney's internship program offers training and direct experience working in one of New York City's most exciting museums. If you are interested in learning more about how museums work or are considering a museum career, you are encouraged to apply. The Whitney seeks talented people of all backgrounds—they value diversity of cultures, races and ethnicities, gender expressions, and abilities.

Interns are placed in departments across the Museum where they assist professional staff, interact with the public, conduct research, provide administrative support, and learn about modern and contemporary American art. Interns also gain valuable training, skills, and work experience as well as an opportunity to build a network of professional contacts.

**Eligibility:** Open to rising juniors and seniors (priority) and graduating seniors who study different academic disciplines and have a strong interest in American art and/or museum work

**Application deadline:** January 27, 2020

**Stipend:** $5,000, nine-week commitment

**Visit:** [https://whitney.org/about/internships](https://whitney.org/about/internships)

---

**Non-Profits, Social Issues, Advocacy**

**AICGS (American Institute for Contemporary German Studies) Washington, DC**

Interns receive a professional and educational experience in a not-for-profit think tank that works to build a smarter German-American partnership. Interns are introduced to all aspects (administrative, programming, development, research) of an American nonprofit public policy institute. AICGS provides opportunities for interns to carry out their own research projects and publish work on the Institute’s website. Interns are involved in ongoing projects and events in the three program areas: Geo-
economics; Foreign & Domestic Policy, and Society; and Culture & Politics. AICGS offers two internship positions: Research Intern and Development Intern.

You should have an interest in transatlantic relations and Europe/Germany. Knowledge of the German language is helpful but not essential. Strong computer skills are required.

**Eligibility:** Open to undergraduates and graduate students  
**Application deadline:** March 1, 2020  
**Stipend:** Unpaid  
**Visit:** [https://www.aicgs.org/job/internships](https://www.aicgs.org/job/internships)

### The Century Foundation (TCF), Summer Scholars Program, New York, NY

Each year, The Century Foundation (TCF) typically invites five Summer Scholars to spend the summer building new relationships and researching the issues they care about most. TCF is a progressive, nonpartisan think tank based in New York City with an additional office in Washington, D.C. They issue reports on issues ranging from economic inequality to education reform to the social safety net to foreign policy. Their fellows are among the world's best in their respective fields, and include professors at the country’s top universities, journalists, best-selling authors, and successful business leaders. Internships are available in Policy Research and Analysis, Editorial, and Communications.

**Eligibility:** Open to undergraduates, recent graduates and graduate students  
**Application deadline:** February 14, 2020  
**Stipend:** $6,000 and local commuting costs, eight-week commitment  
**Visit:** [http://tcfinstitute.org/internships/](http://tcfinstitute.org/internships/) and [http://tcfinstitute.org/about](http://tcfinstitute.org/about)

### Young Fellows Program: 11-Month Program

**Friends Committee on National Legislation (FCNL), Washington, DC**

FCNL Young Fellows spend eleven months working with key staff members to build expertise in advocacy from a public interest perspective. Founded in 1943 by the Quakers, FCNL has spent 70 years lobbying to change federal policy to advance social and economic justice, peace and good government. Fellows work under the title “program assistant” and work directly with FCNL lobbyists and other senior staff, gaining first-hand knowledge of the legislative process and the organizing and communications work that is necessary for policy change.

**Eligibility:** Recent graduates and others at the beginning of their careers  
**Application deadline:** February 17, 2020  
**Stipend:** Salary paid at the DC living wage standard with benefits  
**Visit:** [https://www.fcnl.org/updates/young-fellows-program-32](https://www.fcnl.org/updates/young-fellows-program-32)

### National Organization for Women (NOW), Washington, DC

The National Organization for Women is the largest grassroots organization of feminist activists in the United States. NOW has hundreds of thousands of contributing supporters and members in chapters in all 50 states and the District of Columbia. Since its founding in 1966, NOW’s purpose is to take action through intersectional grassroots activism to promote feminist ideals, lead societal change, eliminate discrimination, and achieve and protect the equal rights of all women and girls in all aspects of social, political, and economic life.
NOW interns will work with one of the following five teams: President’s Office and PAC (Political Action Committee); President’s Office and Accounting; Communications and National Action Program; Government Relations/Public Policy; and Fundraising/Development.

**Eligibility:** Open to undergraduates, recent graduates, and graduate students  
**Application deadline:** Usually mid-February, check website for updates  
**Stipend:** $500/month to offset travel and meal expenses; ten-week commitment  
**Visit:** [https://now.org/job/internships](https://now.org/job/internships)

**Vote Smart Internship, Des Moines, IA**

The Vote Smart Internship Program provides a unique lesson in the study of American politics from a nonpartisan angle. Students come to help American citizens educate themselves about elected officials and candidates. By providing this information in an easy and accessible manner, Vote Smart believes that citizens can better defend themselves from the political hype and misrepresentation characteristic of present day political campaigns and partisan media outlets on all sides. The individual talents, ideas and hard work of the interns has been instrumental in the success of many important programs.

**Eligibility:** Open to undergraduates, recent graduates, and graduate students  
**Application deadline:** Rolling, but submit well in advance of your expected start date  
**Stipend:** Unpaid, minimum of 130 hours over a 15-week consecutive commitment  
**Visit:** [https://votesmart.org/internships/#.WjA8)3lrzcs](https://votesmart.org/internships/#.WjA8)3lrzcs

**Other, Including Camps**

**Camp Akeela, “Where Quirky Campers Thrive!”**, Vermont & Wisconsin

Camp Akeela is a fun, traditional overnight summer camp with locations in Vermont and Wisconsin for boys and girls ages 9 – 19. The Vermont location is set on 400 acres in the Green Mountains of Vermont, and the Wisconsin location is on the campus of Lawrence University in Appleton, WI. Many of Akeela’s campers have been diagnosed with Asperger’s Syndrome or a non-verbal learning disability. Others are undiagnosed but described as “quirky.” All are very bright, charming well-behaved boys and girls who struggle to connect with their peers. Akeela provides staff the opportunity to play an integral role in a community that changes kids’ lives. You will gain valuable experience working first-hand with children, helping them develop social skills while forging lifelong friendships.

**Positions Available:**  
- Cabin Counselors: Male & Female  
- Activity Specialists: archery, art, boating, ceramics, computer programming, drama, farm, fencing, golf, photography, rocketry, ropes course, sailing, swimming, tennis, woodshop

**Eligibility:** Open to undergraduates, recent graduates, and graduate students  
**Application deadline:** Continuous  
**Stipend:** $1,800 - $3,000 plus travel allowance, housing and meals  
**Visit:** [https://campakeela.com/staff/jobs-at-camp/](https://campakeela.com/staff/jobs-at-camp/)
The Amgen Scholars Program at NIH is a partnership between the Amgen Foundation, the Foundation for the NIH, and the NIH Office of Intramural Training & Education. Amgen Scholars at NIH spend the summer working side-by-side with some of the world’s leading scientists, in an environment devoted exclusively to biomedical research.

During their internships at NIH, scholars will be matched with research mentors in the NIH Intramural Research Program (IRP) where they will be immersed in a culture of translational science and will explore important elements of the basic, translational and clinical research enterprise. To get an idea of the types of research conducted in the 27 Institutes and Centers that make up the NIH, visit http://www.nih.gov/icd/.

Students with experience in health disparities and a keen interest in learning more about the biological, environmental, social, and genetic causes of health disparities are especially encouraged to apply. The admission committee will give preference to students who lack opportunities to perform independent research during the school year. NIH welcomes applications from students in all science disciplines and encourages students from diverse backgrounds to apply.

Eligibility: Open to undergraduates (rising juniors and seniors only) interested in PhD and combined degree programs in the sciences. Students interested in attending medical or other professional school programs should apply to the broader NIH Summer Internship Program. Must be a U.S. citizen.

Application deadline: February 3, 2020

Stipend: Monthly stipend with housing and travel support

Visit: https://www.training.nih.gov/amgenscholars

The Canine Cognition Center and Social Cognitive Development Lab are seeking applicants for a summer 2020 NSF-REU program. The REU program is supported by an award from the U.S. National Science Foundation to Yale University as part of the Research Experiences for Undergraduates Program. The broad goal of the Comparative and Developmental Origins of Social Cognition REU Site is to provide students from under-represented backgrounds with joint training in developmental and comparative psychology research. Students will gain experience investigating the origins of human social cognition from two different but related perspectives: developmental studies testing human children’s social understanding and comparative studies examining social cognition in domesticated dogs. The REU is coordinated by Psychology professors Dr. Laurie Santos and Dr. Yarrow Dunham.

REU students will have a rare opportunity to participate in all aspects of the research process: research design, subject recruitment, stimulus generation, data collection, data entry, coding, and statistical analysis. In addition, students will have the opportunity to interact as colleagues: participating in weekly lab meetings, reading current literature, contributing to theoretical discussions regarding the
comparative and developmental origins of social cognition, and attending a professional development series focusing on topics such as applying to graduate school, getting the most out of your undergraduate career, etc. Students will meet weekly with a graduate student mentor, and the PI and co-PI will attend bi-monthly social events.

Women and members of underrepresented groups are especially encouraged to apply. NSF defines underrepresented groups as Alaska Natives, Native Americans, Blacks or African Americans, Hispanics, Native Hawaiians, and other Pacific Islanders, and Persons with Disabilities. Applicants who are first generation college-going (neither of their parents graduated from college) and/or geographically isolated (separated by geographic barriers or distance) are also of special interest.

**Eligibility:** Open to undergraduate freshmen, sophomores, and juniors, and graduate students who are U.S. citizens and who are comfortable working around dogs  
**Application deadline:** February 29, 2020  
**Stipend:** $500/week stipend with some travel costs covered; ten-week commitment  
**Visit:** [https://doglab.yale.edu/NSF-REU](https://doglab.yale.edu/NSF-REU)

### City of Hope Summer Research Program, Eugene & Ruth Roberts Summer Student Academy & Dept. of Hematology & Hematopoietic Cell Transplantation with Dr. Stephen Forman (A70)
Duarte, CA

Dr. Stephen Forman, A70, an international leader in the field of stem cell transplantation and hematologic malignancies, has provided funding for a number of students from each SJC campus to have the opportunity to participate in a summer research program at the City of Hope.

To be considered for this funding you will need to complete a Hodson Internship application and an application to the City of Hope (link is below and the application date to City of Hope is March 9, 2020). The Hodson committee will review your application materials to the City of Hope. Please familiarize yourself with the summer research program at the City of Hope to have an idea of which researchers you would be interested in working with and include that in your letter of interest.

If you have questions about any of these opportunities, please stop by the Career Services Office.

**Eligibility:** Open to undergraduates  
**Application deadline:** MUST complete a Hodson application, deadline: February 26, 2020  
**Stipend:** Funded by Dr. Stephen Forman A70, based on the Hodson Committee’s decision  
**Contact:** Career Services Office for any questions
**The Cooperation Lab at Boston College, Boston, MA**

The Cooperation Lab at Boston College, directed by Dr. Katherine McAuliffe, is seeking motivated, reliable, and enthusiastic summer research assistants for their 2020 Summer Internship Program. Research in the lab focuses on the development of cooperative abilities in children, with a particular focus on how children develop a sense of fairness.

Summer RAs will gain experience with all stages of the research process, including recruiting families, collecting data, analyzing data, and discussing results. Each summer RA will be paired with a graduate student, post-doctoral fellow, or lab coordinator mentor for the duration of the summer, and have a main project. In addition, RAs will attend weekly lab meetings with other undergraduates, graduate students, post-doctoral fellows, the principal investigator, and lab coordinators to discuss ongoing and key research in the field of psychology.

To apply, please: 1) complete the online application 2) email a resume to lmcooperation@gmail.com with the subject line “Summer 2020 Research Assistant Application”, and 3) arrange to have one letter of recommendation (ideally from a professor, teaching assistant, or employer) emailed to lmcooperation@gmail.com with the subject line “Summer 2020 Research Assistant LOR”.

**Eligibility:** Open to undergraduates  
**Application deadline:** February 28, 2020 by 5:00 pm  
**Stipend:** Unpaid, with a full-time commitment for ten to eleven weeks  
**Visit:** [http://www.bccooperationlab.com/](http://www.bccooperationlab.com/)  
**Contact:** lmcooperation@gmail.com

**Frontier Nursing University, Courier Program**

**Summer Health Internships, Kentucky in various sites**

The Courier Program is a service learning internship distinguished by its legacy and the adventuresome nature of the site placements. Sites include rural health clinics and birth centers in Appalachia—as well as outpost locations across the country.

In 1928, Mary Breckinridge, founder of Frontier Nursing University, established the Courier Program, recruiting young people to come work in the Kentucky Mountains and learn about service to humanity.

The goals of the Courier Program are to introduce Couriers to the value of public health, advanced practice nursing, and primary healthcare services to people living in rural and underserved communities; support clinical and other community sites; foster cultural humility through Courier engagement with diverse communities and fellow Couriers; facilitate the Couriers’ experience of FNU’s mission in action; and encourage them to embody the Frontier legacy in their later vocations and personal lives.

**Eligibility:** Applicants should be at least 20 years of age and be rising juniors or seniors  
**Application deadline:** February 26, 2020  
**Stipend:** Unpaid, eight-week commitment; Couriers will pay their transportation costs (gas) and a $500 fee, which covers all housing, board, uniform and other program costs for the entire program  
**Visit:** [https://portal.frontier.edu/web/fnu/learn-more](https://portal.frontier.edu/web/fnu/learn-more)
Institute for Broadening Participation (IBP), Pathways to Science
Various locations around the country

The mission of the Institute for Broadening Participation is to increase diversity in the Science, Technology, Engineering and Mathematics (STEM) workforce. They design and implement strategies to increase access to STEM education, funding, and careers, with special emphasis on diverse underrepresented groups. IBP believes that diversifying the STEM workforce is the best way to ensure our nation's economic vitality and solve global challenges. Their website has many resources for undergrads, grads, postdocs, and more. The website also has some very helpful archived webinars on applying for paid summer research internships.

**Eligibility:** Open to undergraduates and graduate students  
**Application deadline:** check website  
**Stipend:** Most are paid  
**Visit:** [https://www.pathwaystoscience.org/Undergrads.aspx](https://www.pathwaystoscience.org/Undergrads.aspx)

Laney Graduate School's Summer Opportunity for Academic Research (SOAR) Program, Atlanta, GA

The LGS-SOAR Program (May 26 – July 31), is a 10-week residential summer program where research fellows conduct full-time research and are mentored by their Faculty Mentor and teams of postdocs, research technicians, librarians, graduate students, and other undergraduates. The program is unique in that all scholars will be from historically underrepresented ethnic and racial backgrounds in graduate education.

The program is geared to introduce talented, potential Laney Graduate School Scholars, who are from historically underrepresented ethnic and racial backgrounds, to a vast skillset that includes:

- Communicating research to a variety of audiences
- Problem solving
- Interpreting results
- Participating in novel research
- Navigating difficult ethical situations
- Network building
- Presenting their work (Symposium Style Capstone Experience)

**Eligibility:** Open to freshmen, sophomores, and juniors  
**Application deadline:** January 29, 2020  
**Stipend:** Paid with a housing award for residence on the Emory campus; ten-week commitment  
**Visit:** [http://gs.emory.edu/diversity/programming/lgs-soar/index.html](http://gs.emory.edu/diversity/programming/lgs-soar/index.html)  
**Contact:** Associate Dean Amanda Marie James at laney.edge@emory.edu

NASA Internships, Various locations around the country

NASA internships are competitive awards to support educational opportunities that provide unique NASA-related research and operational experiences. These opportunities serve students by integrating interns with career professionals emphasizing mentor-directed, degree-related tasks, while contributing to the operation of a NASA facility or the advancement of NASA's missions.
Eligibility: Open to undergraduates and graduate students
Application deadline: March 8, 2020
Stipend: Varies
Visit: https://intern.nasa.gov

National Institutes of Health (NIH)
Summer Internship Program in Biomedical Research (SIP)
Three Maryland locations; Research Triangle Park, NC; Hamilton, MT; Framingham, MA; Phoenix, AZ and Detroit, MI

The Summer Internship Program (SIP) in Biomedical Research provides research experiences in NIH laboratories in an environment devoted to biomedical research.

Interns attend lectures and career/professional development workshops and may present their work before the NIH scientific community during the Summer Research Program Poster Day. Interns participate in meetings and seminar labs.

Eligibility: Open to undergraduates, recent graduates, and graduate students who are U.S. citizens or permanent residents
Application deadline: March 1, 2020
Stipend: Paid, $2,260 - $3,510/month based on education level, minimum eight-week commitment
Visit: https://www.training.nih.gov/programs/sip/

National Institute of Standards and Technology (NIST), Boulder, CO and Gaithersburg, MD

The U.S. Department of Commerce’s National Institute of Standards and Technology (NIST) is seeking enthusiastic undergraduate students to apply to the agency’s premier Summer Undergraduate Research Fellowship (SURF) Program at the Boulder, CO and Gaithersburg, MD locations. Since 1993, SURF students from across the country have had the opportunity to gain valuable, hands-on experience, working with cutting edge technology in one of the world’s leading research organizations and home to three Nobel Prize winners.

The mission of the SURF Program is to inspire undergraduate students to pursue careers in STEM (science, technology, engineering, and mathematics) through a unique research experience that supports the NIST mission.

As a SURF participant, you can expect to train under the mentorship of internationally known NIST scientists and engineers, acquire lifelong leadership and analytical skills, build professional networks, and learn about a career in public service. You will also gain insight on how NIST improves our quality of life through the advancement of measurement science, standards, and technology.

To apply, prospective applicants must apply for acceptance into the SURF Program on USAJobs.Gov (Search SURF Boulder or SURF Gaithersburg). The announcement will close on February 3, 2020 at 11:59 PM (Eastern time) or when the application limit has been reached which may be sooner than the
Eligibility: Open to undergraduates
Application deadline: February 3, 2020, may close earlier if the application limit is reached prior to that date
Stipend: Paid with the possibility for housing and travel allowances; 11-week commitment
Visit: https://www.nist.gov/surf

The Notre Dame Graduate School, Summer Research Opportunities Program (SROP), Notre Dame, IN

The Notre Dame Graduate School is seeking applicants for their Summer Research Opportunities Program (SROP), which is designed to prepare aspiring graduate students for success by immersing them in guided research with a world-class faculty for ten weeks during the summer, culminating in a research symposium on campus. The program is open to students in any discipline offered by the Notre Dame Graduate School (listed here). Applications from undergraduates from underrepresented backgrounds, first-generation, or financially disadvantaged students are particularly welcome.

Notre Dame supports students who have been admitted to the program by providing:
- A generous stipend
- Housing
- Travel expenses
- GRE prep
- Specialized assistance with grant and fellowship applications to NSF, NIH, Fulbright, and more
- Graduate school application support
- Mentoring sessions
- Fee waiver when applying to ND

Over the past decade SROP participants have received awards from:
- The National Science Foundation (NSF) Graduate Research Fellowship Program (GRFP)
- The Fulbright Program
- The National GEM Consortium

The 2020 SROP program will run from May 18 to July 25. Previous participants have been admitted to many top graduate programs.

Eligibility: Open to current sophomore and junior undergraduates who are U.S. citizens
Application deadline: February 15, 2020
Stipend: Paid stipend along with housing and travel expenses, and many other benefits (see above); ten-week commitment
Visit: https://www.nist.gov/surf
Contact: John Lowery, Ph.D., Recruitment Strategies Program Director, jlowery@nd.edu
University of Alabama at Birmingham
Summer in Biomedical Science (SIBS), Undergraduate Research Program
Birmingham, AL

The Summer in Biomedical Science (SIBS) Undergraduate Research Program will provide the opportunity for undergraduates to be instructed in the techniques of modern biology while becoming integrated members of a vibrant clinical and scientific community. This program is designed to help students make well-informed decisions about future career plans. Previous research experience is not required. Applications are particularly welcome from students who are interested in research as a potential career, including students interested in PhD and MD/PhD programs.

Eligibility: Open to U.S. citizens or permanent residents who are sophomores or juniors when they apply
Program dates: June 1 – July 24, 2020
Application deadline: February 15, 2020, applications are reviewed on a rolling basis
Stipend: $3,200 with campus housing provided; eight-week commitment
Visit: https://www.uab.edu/medicine/sibs/

Vanderbilt Summer Science Academy (VSSA), Nashville, TN

The Vanderbilt Summer Science Academy (VSSA) gives college students the opportunity to participate in both research and clinical patient care at an academic medical center. This program is designed for students who are interested in a career in medicine. Participants will complete a research project under the leadership of a research mentor and also directly observe clinical patient care while spending time with resident and attending physicians.

There are two major tracks within the VSSA: the Basic Science Programs for undergraduates interested in careers in research and the Undergraduate Clinical Research Internship Program for undergraduates who wish to pursue a career in medicine. Participation in any of the Summer Science Academy programs is a valuable learning experience that enhances a student’s skills and makes him or her more competitive for acceptance to frontline graduate programs.

Eligibility: Open to undergraduate students who are U.S. citizens or permanent residents
Application deadline: February 1, 2020
Stipend: Paid
Visit: https://medschool.vanderbilt.edu/vssa
Teaching & Education

Johns Hopkins University Center for Talented Youth (CTY)
Baltimore, MD and various locations around the country and in Hong Kong

CTY offers intensive academic instruction to academically talented pre-collegiate students from 2nd to 11th grade. The academic program includes rigorous courses in mathematics, science, computer science, humanities, and writing.

Interns gain practice in a closely supervised and supportive setting. Teaching assistants tutor students, assist with the paperwork of a class, teach the class as requested by the instructor, supervise late afternoon/evening study sessions, assist with administrative tasks such as typing and photocopying, and generally help to ensure that the class runs smoothly. Resident assistants help create a community that encourages and supports intellectual curiosity, rigorous thinking, and a joy for learning. RAs ensure the physical and emotional safety of students and develop a fun, dynamic, and engaging activities program.

CTY is consistently named as one of the top internships in leading publications and has a network of past employees now working in positions ranging from heads of school to deans of students to university professors.

Eligibility: Open to undergraduates, recent graduates, and teachers
Application deadline: Begin considering applications in early January, applications considered on an ongoing basis, visit the website for additional information
Stipend: Teaching Assistants: $2,540 per for two three-week sessions; resident assistants: $3,006 for two three-week sessions. There is an option for employment for one three-week session. Room and board are provided
Visit: https://cty.jhu.edu/jobs/summer/index.html

SML Good Neighbor Teaching Internships at the Summer Enrichment Day Camps at Smith Mountain Lake, Moneta, VA

SML Good Neighbors invites you to become part of their community for a summer of work, fellowship, personal growth and transformation as you help serve over 250 elementary school children in the Good Neighbors program. The children you will serve are those who are most vulnerable. They are children who come from families with limited resources. Priority is also given to children who need assistance with reading and other communication skills. In addition, the Good Neighbors curriculum is a values-based curriculum that emphasizes nonviolence, accepting diversity, compassion, honesty and integrity. These values are at the heart of all camp activities and are modeled by all who work with the children.

Eligibility: Open to undergraduates, recent graduates, and graduate students
Application deadline: February 21, 2020
Stipend: $1,750 plus lodging and gas/grocery gift cards are included, nine-week commitment
Visit: https://www.smlgoodneighbors.org/sml-gn-internships
Touchstones Discussion Project Summer Internship Program
Stevensville, MD

Touchstones has been called the democratization of education because their discussion-based programs develop thinking and collaboration at the highest levels for all students, regardless of their economic or educational background. For 35 years, Touchstones’ primary focus has been to address gaps in education in K-12 schools by teaching educators and students to use structured dialogue to activate and enliven their thinking and build cooperation and leadership.

Stefanie Takacs (A89), the executive director at Touchstones, is seeking a summer intern. An internship at Touchstones would be appropriate for those interested in opportunities related to K-12 education, educational psychology, social justice (particularly related to marginalized populations and the incarcerated), or leadership development.

Eligibility: Open to undergraduates
Application deadline: February 15, 2020
Stipend: Unpaid, but suitable for Hodson funding

Technology

OpenPath Products, SJC Summer Technology Intern, Annapolis, MD
Forwarded to us by the alumni owners of OpenPath Products!

Learn how to apply your St. John’s education to the exhilarating demands of a high-tech career.

St. John’s provides skills that are essential to today’s fast-paced, high-tech working world. Your ability to analyze information, deconstruct ideas, discuss concepts, and document your findings are critical in today’s workforce and particularly in high-tech, entrepreneurial-driven organizations that must anticipate and act on market needs before the competition.

OpenPath Products is a leading software technology company based in Annapolis, MD. OpenPath Products has helped many Johnnies over the past 18 years to apply their classroom skills to learn how to test, document, design and program some of the industry’s most forward-looking software. OpenPath Products was one of the world’s first “mobile app” development companies and has innovated in the areas of mobile streaming media, financial tech, Internet of Things, and healthcare.

Through an OpenPath Products internship, you can learn how modern software is written and deployed to millions of people throughout the world. You will learn to write and execute test plans, collaborate with programmers, and help bring software products to market. OpenPath will train you to use modern tools in software development, including JIRA, Confluence, and various collaboration tools.
This is an excellent opportunity for Johnnies to build on their existing skills and learn many new ones. Full or part-time paid internship opportunities are available during the summer. OpenPath Products is located 3.8 Miles from campus in Annapolis behind the mall.

**Eligibility:** Open to undergraduate and graduate students  
**To apply:** Please send your resume to Johanna Wilson at info@openpathproducts.com  
**Stipend:** Paid  
**Application deadline:** February 15, 2020

**Theatre & Performing Arts**

**Kennedy Center Internships, Washington, DC**

The Kennedy Center Internship Program is a holistic and rigorous professional development program designed to elevate the next generation of leaders in the arts, cultural, and non-profit fields. Kennedy Center interns spend a significant amount of their time at the Kennedy Center in individual placements, gaining valuable work experience and technical skills in their chosen field. Additionally, Kennedy Center interns spend 5-10 hours each week participating in the various components of the Kennedy Center Internships curriculum in order to increase leadership potential and fluency in the non-profit and cultural sectors.

**Eligibility:** Open to rising sophomores, juniors, and seniors and graduate students. International applicants are encouraged to apply.  
**Application deadline:** March 15, 2020  
**Stipend:** Unpaid

---

**Signature Theatre Company, New York, NY**

The goals of the program are to provide you with valuable insight into various career paths, facilitate opportunities to make professional contacts, and equip you with marketable skills for future academic programs and employment opportunities in theatre and not-for-profit management. The comprehensive program provides hands-on experience in theatre administration and production through Signature Seminars, Signature Mentorship, and the In-House Meeting Swap.

**Eligibility:** Open to undergraduate and graduate students, and early career professionals  
**Application deadline:** On a rolling basis until March 1, 2020 by 6:00 pm  
**Stipend:** A monthly MetroCard and complimentary tickets. June-August commitment  
**Visit:** [www.signaturetheatre.org/about/intern-with-us.aspx](http://www.signaturetheatre.org/about/intern-with-us.aspx)
Wolf Trap Foundation for the Performing Arts, Vienna, VA

The internship program is designed to provide meaningful hands-on training and experience in the areas of arts administration, education, and technical theater.

Internships offer the practical opportunity to become an integral member of the staff and to work side-by-side with professionals producing, promoting, and administering the full spectrum of the performing arts. Internship opportunities are with communications and marketing, education, box office/group sales, development and information technology.

**Eligibility:** Open to undergraduates, graduate students, recent graduates (within two years), career changers and international students

**Application deadline:** February 1, 2020

**Stipend:** Paid minimum wage with additional benefits

**Other Summer Opportunities**

**US-UK Fulbright Commission 2020 UK Summer Institutes for US Undergraduates**

The US-UK Fulbright Commission offers special Summer Institutes for U.S. citizens to come to the UK. These summer programs provide the opportunity for U.S. undergraduates, with at least two years of undergraduate study left to complete, to come to the UK on a three or four week academic and cultural summer program.

Participants in these programs will get the opportunity to experience an exciting academic program at a highly regarded UK University, explore the culture, heritage and history of the UK and develop their academic ability by improving their presentation, research and communication skills.

The Summer Institutes will cover the majority of participant costs. This includes return US-UK airfare, tuition and fees at the host institution, accommodation and in some cases a small daily allowance for meals.

**Open to:** U.S. undergraduate students with at least two years of undergraduate study remaining and little or no study or travel outside of the U.S.

**Application deadline:** February 11, 2020
